

Technologies we use

At New Media we embrace a growth mindset and we claim that nothing is impossible. It does not matter the framework or the coding language as long as they are tools that can be learned and served in the purpose of finding the right solution to the problem.

We do currently have experienced people in our staff that have the capability to operate:

Front End:

- typescript
- react js
- angular
- svelte
- vuejs
- dart
- flutter

Back End:

- php
- python
- node js

Databases:

- mysql
- postgresql
- mongodb
- firebase
- redis
- elastic search

Devops:

- docker
- google cloud build
- github actions
- kubernetes

Cloud:

- google cloud
- aws

Frameworks:

- laravel
- symfony
- wordpress
- django
- fast api
- express js
- flask
- salesforce commerce cloud
- woocommerce
- strapi
